

Organizers: Prof. Dr. G. Blaschke & Prof. Dr. H. Derendorf

*Symposium
New Developments
in
Clinical Pharmacy
and
Clinical Pharmacology*

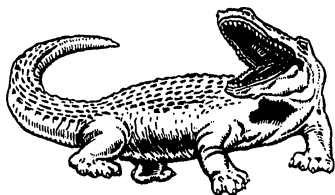

*Institute for
Pharmaceutical Chemistry
Hittorfstr. 58-62
Münster, Germany*

Presenter/Title

Prof. Jacek Bojarski
Jagiellonian University, Poland
Determination of acebutolol and diacetolol in human plasma using chiral chromatography

Dr. Paul Doering
University of Florida, USA
Clinical pharmacy at the
University of Florida

Privatdozent Thomas Gramatte
Apogepha GmbH, Germany
New developments in oral drug
absorption

Prof. Dr. Habil Tadeusz Hermann
K. Marcinkowski University, Poland

Does the mercaptolysis of azathioprine proceed identically in aqueous solutions and in biological fluids?

Dr. Ulrich Jaehde
Freie Universität Berlin, Germany
Clinical pharmacy at the Free
University of Berlin

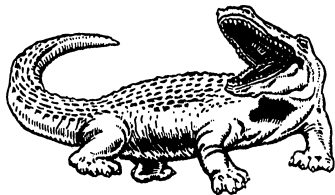

Dr. Heyo K. Kroemer
Margarete Fischer Bosch Institute, Germany
Drug targeting using clucoronide prodrugs

Dr. med Stephanie Laer
Universitäts-Krankenhaus
Eppendorf, Germany
Drug interactions of class II and
III antiarrhythmics

Dr. rer. nat. Bernd Meibohm
University of Florida, USA
Pharmacokinetic-
pharmacodynamic modeling of
inhaled corticosteroids

Dr. Reinhard Neubert
Martin Luther University,
Germany
A new approach for in-vivo in-
vitro correlations of solid dosage
forms

Dr. Hans Schaefer
Lilly Research Center, UK
Rational clinical development of
controlled release dosage forms -
pharmacokinetic aspects

Prof. Dr. rer. nat., Dipl. Chem.
Joachim K Seydel
Forschungszentrum Borstel,
Germany
Inhibition of the conjugation of
PABA with Glycin in vitro by
sulfamoyl benzoic acid

Dr. Jurgen Venitz
Virginia Commonwealth
University, USA
Clinical pharmacology of a novel
allosteric hemoglobin modifier
